

FLATBUSH

STORYTELLING PROJECT

Who does Flatbush belong to?

**What does it mean
to grow up in
Flatbush?**

**We are looking for FTC tenant
leaders interested in documenting
their experience fighting for
tenant rights and affordable
housing**

We want to interview FTC tenant leaders in Flatbush about their day to day experiences living in Flatbush and their fight for tenant rights. This project will be documented through audio, photograph, video, or through whatever medium you are comfortable with.

This project will also explore the differences between the experiences of the younger generation living in Flatbush (12-30) and the older generation of Flatbush (30 and above) and their perspectives on their neighborhood. Young people also have the opportunity to help us create a digital interactive map and a website to post our content.

***You do not have to be filmed for the project.**
